

52ND ANNUAL NORTH JERSEY ORCHID SHOW & SALE

LIST OF WORKSHOPS & EVENTS

Friday January 18

11:30 AM The Basics of Orchid Photography

Presented by Maurice Garvey who is an American Orchid Society certified photographer. Learn how to take pictures using a cell phone, iPad mini, point and shoot camera, or a digital SLR using lighting techniques with inexpensive reflectors. He will cover white balance, macro settings, flash and inexpensive software. Also learn about some phone and iPad apps for photography.

1:00 PM American Orchid Society (AOS) Judging

You are invited to observe this judging session. Learn what attributes make a flower awardable; and time permitting, John Sullivan, a certified AOS judge, will provide commentary and answer questions. Judging starts on display floor and finishes upstairs in large conference room.

1:30 PM Orchid Basics

If you're just getting started, this is the workshop for you. Bill Stender, New Jersey Orchid Society former Vice President, will discuss how to succeed in the fascinating and addictive world of orchids. Questions such as what makes it an orchid and how many types are there will be among the many fascinating items covered.

2:30 PM Repotting Workshop

Demonstration presented by Richard Ho, trustee, North Jersey Orchid Society, on how and when to repot your orchids to keep them healthy, growing and most importantly, blooming.

Saturday January 19

10:00 AM Growing Neofinetia

Dr. Kristen Uthus, owner of New World Orchids, will discuss Neofinetia orchids. Neofinetias are particularly cherished in Japan. Unlike the typical orchids, "neos" are prized for their foliage which makes them a beautiful addition to your home year-round. When they bloom, their delicate and long-lasting flowers fill the air with an intoxicating scent that is a mix of vanilla, honeysuckle and orange blossoms; and they are easy to grow.

11:00 AM Repotting Workshop

Demonstration presented by Richard Ho, trustee, North Jersey Orchid Society, on how and when to repot your orchids to keep them healthy, growing and most importantly, blooming.

1:30 PM Growing Cattleyas in Your Home

Bart Costello, a member of the North Jersey Orchid Society specializes in growing cattleyas in his home. Come learn how you can grow these beautiful and often fragrant flowers in your home and be rewarded with spectacular blooms.

52ND ANNUAL NORTH JERSEY ORCHID SHOW & SALE

LIST OF WORKSHOPS & EVENTS

3:30 PM Intro to the World of Orchids

Presented by Carrie Buchman, President of NJOS, this talk is ideal for anyone who wishes to broaden their background knowledge about orchids. You will learn about the different species, growing conditions and how to manage them in your home.

Sunday January 20

10 AM Intro to the World of Orchids

Presented by Carrie Buchman, President of NJOS, this talk is ideal for anyone who wishes to broaden their background knowledge about orchids. You will learn about the different species, growing conditions and how to manage them in your home.

11 AM Growing Orchids in Glass Globe Terrariums

Daryl Yerdon from Kelley's Korner Orchid Supplies will talk about growing orchids in hanging glass globes. This is a great way to grow and display miniature orchids. Daryl will discuss how to select orchids that do well in this environment and how to successfully grow them.

12:30 PM Growing Neofinetia

Dr. Kristen Uthus, owner of New World Orchids, will discuss Neofinetia orchids. Neofinetias are particularly cherished in Japan. Unlike the typical orchids, "neos" are prized for their foliage which makes them a beautiful addition to your home year-round. When they bloom, their delicate and long-lasting flowers fill the air with an intoxicating scent that is a mix of vanilla, honeysuckle and orange blossoms; and they are easy to grow.
